BUSHY ADENIUM-BONSAI SEEDLINGS THE NEW TREND OF 2009 ADENIUM FORM PLAYING

Hi Adenium Lovers;

Today I would like to introduce you with the new Trend of Thai Socotranum grown as Bonsai Seedling Form. Here are the easy things to be noticed by this form:

1. Rounded Bushy branches - Good for easy pruning and branches themselves are hardly get longert.
2. Leaves are exactly shiny
3. Branch is consists of many internodes and dark brown.
4. Pyramid style: Short Caudex and wide round rootbase
5. Brown caudex skin some have waterfall skin (Rare)
6. Root: Nice round shape with spread root legs
